Practical-7

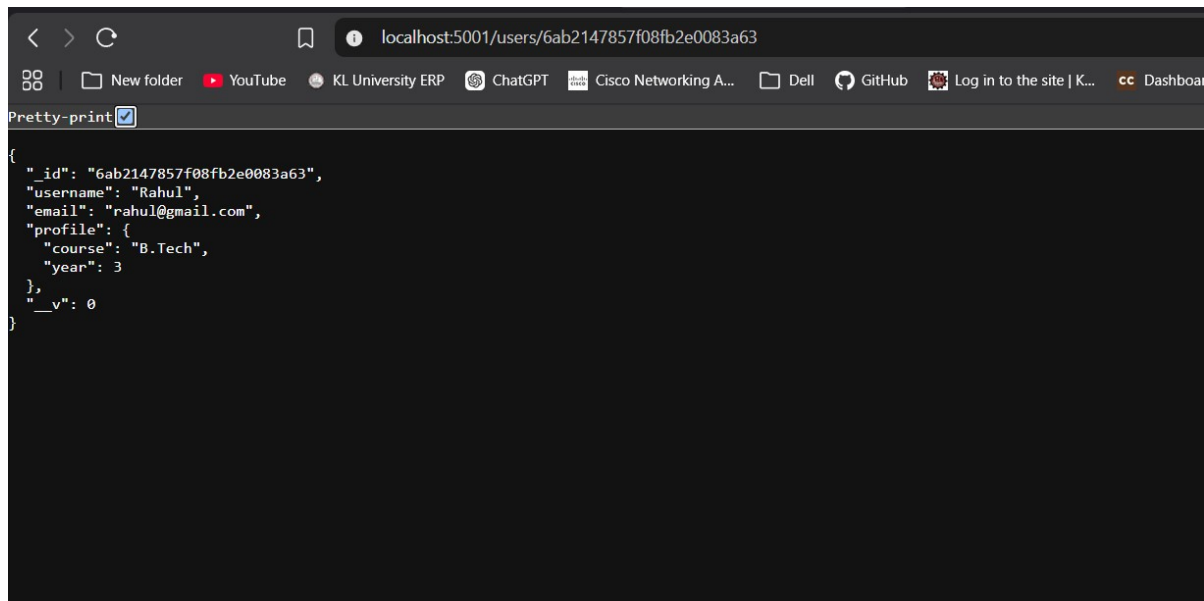

VS-Code:

The screenshot displays the Visual Studio Code (VS Code) interface. The Explorer sidebar on the left shows the project structure, including files like `app.js`, `db.js`, `package-lock.json`, `package.json`, `userController.js`, `activityController.js`, `userRoutes.js`, `activityRoutes.js`, `node_modules`, `routes`, `activityRoutes.js`, `userRoutes.js`, `app.js`, `db.js`, `package-lock.json`, and `package.json`. The main editor area shows the `app.js` file with the following code:

```
1 const express = require("express");
2
3 const app = express();
4
5 require("dotenv").config();
6
7 require("./db");
8
9 app.use(express.json());
10
11 const activityRoutes = require("./routes/activityRoutes");
12
13 const userRoutes = require("./routes/userRoutes");
14
15 app.use("/", activityRoutes);
16
17 app.use("/", userRoutes);
18
19 app.listen(5001, () => {
20   console.log("User service running on port 5001");
21 });
```

The Terminal panel at the bottom shows the command prompt output for the `Invoke-WebRequest` command, indicating a successful POST request to `http://localhost:5001/users` with a body of `{ "username": "Rahul", "email": "rahul@gmail.com", "profile": { "course": "B.Tech", "year": 3 } }`. The response shows a `message` of `User created successfully @ (username=Rahul; email=rahul@gmail.com; profile=; _id=6ab2147857f08fb2e0083a63; ...`.

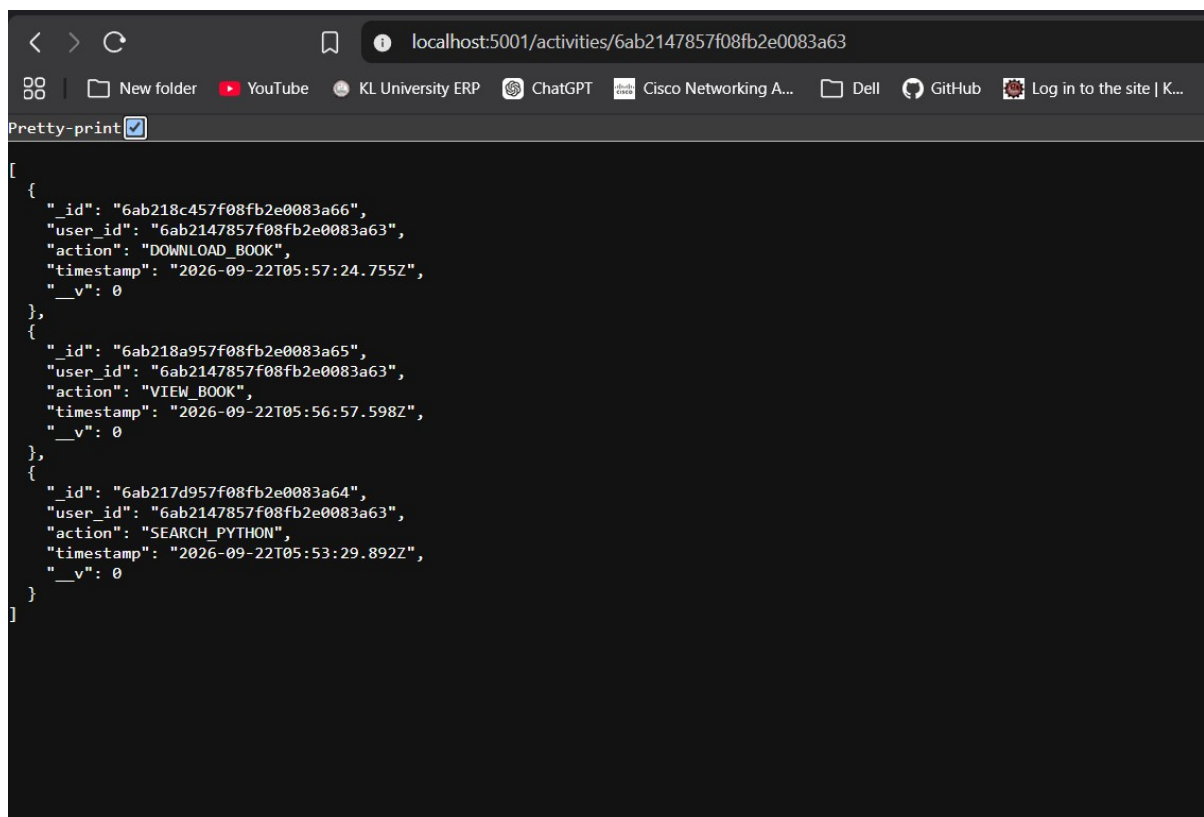

Retrieving User Details

A screenshot of a web browser window. The address bar shows the URL `localhost:5001/users/6ab2147857f08fb2e0083a63`. The browser's taskbar at the top includes icons for 'New folder', 'YouTube', 'KL University ERP', 'ChatGPT', 'Cisco Networking A...', 'Dell', 'GitHub', and a 'Log in to the site | K...' button. The main content area displays a JSON object representing a user's profile. A 'Pretty-print' checkbox is checked in the top left corner of the content area.

```
{
  "_id": "6ab2147857f08fb2e0083a63",
  "username": "Rahul",
  "email": "rahul@gmail.com",
  "profile": {
    "course": "B.Tech",
    "year": 3
  },
  "__v": 0
}
```

VIEW_BOOK and DOWNLOAD_BOOK

A screenshot of a web browser window. The address bar shows the URL `localhost:5001/activities/6ab2147857f08fb2e0083a63`. The browser's taskbar at the top includes icons for 'New folder', 'YouTube', 'KL University ERP', 'ChatGPT', 'Cisco Networking A...', 'Dell', 'GitHub', and a 'Log in to the site | K...' button. The main content area displays a JSON array of three activity objects. A 'Pretty-print' checkbox is checked in the top left corner of the content area.
